Alabama Inventor to Exhibit “Free Bird” at America’s Largest Invention Show

PITTSBURGH... InventHelp’s INPEX®, America’s Largest Invention Trade Show, announces that inventor, Dennis Charles, from Albertville, Alabama, has invented a radio-controlled, Mylar helium filled balloon that looks like, and more importantly, flies like a flying saucer that can travel in any direction in 3-Dimensional space. This invention will be exhibited at INPEX® 2010, June 16-18, in Pittsburgh.

Unidentified Flying Objects and life on other planets is a subject often debated and studied. Stories and reports of spacecrafts hovering over open fields and flashes of lights seen over miles are eerie and fascinating to many people. One inventor, interested in science and philosophy, took this into consideration and thought of an idea called “Free Bird”, which is a man-made, man-controlled flying saucer-like object.

Free Bird is a radio-controlled flying helium balloon that has its controlling mechanism at its center of gravity that powers and controls the flying machine. This gives Free Bird the ability to fly in any direction in 3-Dimensional space.

The inventor was inspired to think of his invention when he was a student. “While studying at the University of Science and Philosophy, I found the knowledge to build a flying saucer and this invention is to prove it,” said Charles.

Charles is exhibiting at INPEX® with the hopes of finding a manufacturer, distributor, venture capitalist and importer/exporter.

INPEX®, The Invention Show, is a unique trade show that showcases new products and innovations that are available to business and industry to manufacture, license or distribute. As part of the trade show, The Invention Show sponsors INPEX® Inventors University™, a series of seminars, presentations, and panel discussions to provide information that inventors may find useful in pursuing their ideas. This year, INPEX® will be held at the newly constructed Monroeville Convention Center in Monroeville, just minutes from downtown Pittsburgh.

INPEX® is a service of InventHelp®, America’s largest inventor service company. For more information about this inventor or INPEX®, call 888-54-INPEX or visit www.inpex.com.
