

INPEX®, America's Largest Invention Trade Show, Has Highest Ever Number of Inventions in 2008

PITTSBURGH...InventHelp's INPEX® Invention Show announces that there will be in excess of 1,500 inven

According to trade show director, Nicole Hait, "This is the biggest showing ever for our invention

INPEX® expects to have inventors from 18 countries at the 2008 show. Inventors from all over the world are invited to attend and present their ideas to attending companies. There are many events for i

Inventions at INPEX® run the gamut from rough prototype to finished/market-ready products. Inventors with secured intellectual property rights are encouraged to participate in the INPEX® 2008 trade show or at future INPEX® shows. "Coming to INPEX® is a very positive experience for inventors," said Hait. "They learn at the University, they enjoy events such as the Pirate game and they have the opportunity to mingle and network with other inventors from all over the world."

Many companies also come to INPEX® to scout for new products. This year, companies such as The Robert Bosch Tool Corporation, Everlast™, Hasbro, Tupperware®, Irwin® Industrial Tools and FullLife™ Products will be conducting private product reviews to search for new products to add to their existing lines. Inventors with products in those categories have the opportunity to meet with executives from these companies one-on-one to receive feedback about their inventions. The "As Seen on TV" panel, sponsored by Response Magazine, allows inventors to present their ideas to a panel of TV marketing professionals, experienced in the fields of infomercials and home shopping, for feedback on its potential on television.

For more information about either exhibiting or attending INPEX® 2008, call 1-888-54-INPEX or visit www.inpex.com.
