InventHelp's INPEX® - America's Largest Invention Trade Show - Announces Dates for its 27th Annual Show in June 2012

PITTSBURGH...InventHelp's Invention & New Product Exposition (INPEX) is pleased to announce the dates for the 27th annual INPEX® Show, June 13-15, 2012. INPEX®, America's largest Invention Trade Show, features inventors from the United States as well as more than 20 countries. The show will be held at the Monroeville Convention Center, just fifteen minutes from downtown Pittsburgh.

InventHelp's INPEX® is a unique trade show that showcases numerous inventions, new products and innovations that are available to license, market or manufacture. This trade show brings inventors together with industry representatives in one convenient networking forum. INPEX® will again present the INPEX® Inventor's University™, a series of seminars, presentations and panel discussions on topics like prototyping, patenting and manufacturing. The show will also feature private product searches, where inventors can present ideas to large, well-known companies who are looking for new products to add to their existing lines, as well as provide feedback to the inventors about their products.

"We are very excited to have set the dates for our 27th annual show," said Nicole Hait, trade show director. "This past year, hundreds of companies utilized INPEX® as a venue to look for new and innovative products to add to their existing product lines. Corporate America has never been more interested in inventions."
