

False Email - Attention

Feb 07, 2007

Recently, Email messages from an unidentified person have been sent out by using the name of Mr. Masatoshi Sugioka, President of Teikoku Oil Co., Ltd., (Teikoku), and other Executives in which Teikoku looks for the associates who can act as its medium and receive payments from customers on its behalf. These messages also require a registration of the addressees' individual details.

However, please be advised that Teikoku and its Directors and Executives have nothing to do with these Email messages. In this connection, we would appreciate it if you pay good attention to such false messages.

Regards,
