## **INPEX Joins Sustainable Resources Engineering Education Consortium**

**TOKYO, JAPAN** – [INPEX CORPORATION](https://www.inpex.com/english/index.html) (INPEX) announced today that it has become a partner of the Sustainable Resources Engineering Education Consortium (SREC) as of April 1, 2025.

SREC is a consortium jointly established by the Graduate School of Engineering, Hokkaido University and the Graduate School of Engineering, Kyushu University in April 2022, with the aim of strengthening and enhancing the educational system for development of human resources in the field of natural resources engineering.

Through its partnership with SREC, INPEX will contribute to the sustainable development of human resources in the natural resource sector by sharing its technologies and capabilities related to the development of resources including oil and natural gas, as well as low-carbon technologies and capabilities centered on carbon dioxide capture and storage (CCS) and hydrogen projects. INPEX will also strengthen its network with other SREC partners including companies and universities.

### **About INPEX**

INPEX is Japan's largest exploration and production (E&P) company, engaged in the development and operation of oil and gas projects worldwide. We are committed to contributing to a brighter future by delivering energy in a sustainable way. As part of this commitment, we are also engaging in lower-carbon solutions such as CCS, hydrogen and integrated power supply, while pursuing new opportunities in the evolving energy landscape.
