INPEX and Northern Territory Government Sign Strategic Agreement to Advance Sustainable Development

TOKYO, JAPAN - [INPEX CORPORATION](#) (INPEX) announced it has signed a strategic agreement with Australia's Northern Territory Government to provide an agreed sustainable development framework supporting alignment, collaboration and synergies over the coming decades.

Signing ceremony of the Strategic Agreement with the Northern Territory Government

The strategic agreement was signed with the Hon. Lia Finocchiaro MLA, Chief Minister of the Northern Territory with the objective of supporting sustainable development across shared economic, social and environmental targets, within a competitive framework. The multi-decade, non-binding strategic agreement builds on the commitment statement jointly signed by INPEX and the Northern Territory Government in July 2022.

The parties will work together through a co-ordination committee to implement the agreement in alignment with the following mutual foundations:

- Increasing local skills and stimulating business in the Northern Territory
- Advancing economic growth
- Increasing trade

- Protecting the environment
- Maintaining safe production of the Ichthys LNG facilities for the long term
- Advancing the transition towards a net-zero society by 2050 in the Northern Territory, Australia and Japan

As outlined in the [INPEX Vision 2035](#) announced in February 2025, INPEX aims to realize a responsible energy transition by supporting energy security in Japan and the Asia-Pacific while actively contributing to transition towards net zero by 2050.

About INPEX

INPEX is Japan's largest exploration and production (E&P) company, engaged in the development and operation of oil and gas projects worldwide. We are committed to contributing to a brighter future by delivering energy in a sustainable way. As part of this commitment, we are also engaging in lower-carbon solutions such as CCS, hydrogen and integrated power supply, while pursuing new opportunities in the evolving energy landscape.
