INPEX Holds Facility Tour for Shareholders

TOKYO, JAPAN - [INPEX CORPORATION](https://www.inpex.co.jp) held facility tours for shareholders at Naoetsu LNG Terminal in Joetsu City, Niigata Prefecture, on October 16 and 17, 2025.

To invite as many shareholders as possible to participate in this tour, we doubled its capacity from 80 people to 160 people by increasing the number of sessions from one to two.

Due to rainy conditions on October 16, the participants toured the Central Control Room, which is included in the visitation route taken on rainy days. October 17 brought fine weather, and the participants enjoyed taking photos in the open air in front of one of the LNG tanks.

Based on a questionnaire on the shareholders' evaluations of the tours, the satisfaction level of participants was 4.58 on a scale of 5. (Questionnaire response rate: 86 percent)

The following remarks are a selection of the feedback received from shareholders.

- I gained a clear understanding of INPEX's business operations.
- I now have a good understanding of INPEX's efforts to ensure a stable energy supply.
- I enjoyed the tour entirely despite the rain.

INPEX appreciates the continued support of all its shareholders and will continue to organize facility tours to deepen shareholders' understanding of its business.

About INPEX

INPEX is Japan's largest exploration and production (E&P) company, engaged in the development and operation of oil and gas projects worldwide. We are committed to contributing to a brighter future by delivering energy in a sustainable way. As part of this commitment, we are also engaging in lower-carbon solutions such as CCS, hydrogen and integrated power supply, while pursuing new opportunities in the evolving energy landscape.
