INPEX Announces Start of Production from Marjoram Gas Field off the coast of Sarawak, Malaysia

TOKYO, JAPAN - INPEX CORPORATION (INPEX) announced today that production has commenced from the Marjoram Gas Field, which straddles Block 2E and the adjacent Block SK318 off the coast of Sarawak, Malaysia. INPEX holds a participating interest in Block 2E through its subsidiary INPEX Malaysia E&P 2E Sdn. Bhd. (IM2E).

The Marjoram Gas Field was discovered in 2014 and was subsequently unitized across Block 2E and Block SK318, with Sarawak Shell Berhad (Shell) serving as the unit operator. A final investment decision (FID) was made in 2022. Following its acquisition of an 85 percent participating interest in Block 2E in July 2026, IM2E had been working with Shell on development activities toward the commencement of production.

Marjoram is INPEX's first producing field in Malaysia, and the start of production is expected to further strengthen INPEX's business foundation in the country.

This project forms part of INPEX's efforts to expand its natural gas/LNG business in Southeast Asia, as outlined in INPEX Vision 2035, which was announced in February 2025.

INPEX will continue to contribute to a stable energy supply across Southeast Asia, including Malaysia, with a focus on natural gas, while proactively pursuing opportunities to expand its business activities in the region.

About Block 2E

Block Name	2E
Block Location	Off the Coast of Sarawak, Malaysia
Partners and Participating Interests	INPEX Malaysia E&P 2E Sdn. Bhd. (Operator): 85 percent PETRONAS Carigali Sdn. Bhd.: 15 percent

About INPEX

INPEX is Japan's largest exploration and production (E&P) company, engaged in the development and operation of oil and gas projects worldwide. We are committed to contributing to a brighter future by delivering energy in a sustainable way. As part of this commitment, we are also engaging in lower-carbon solutions such as CCS, hydrogen and integrated power supply, while pursuing new opportunities in the evolving energy landscape.
